

Creating smart built environments for a sustainable future

When: 1.00 to 4.00 pm, 18 April 2013

Venue: Student Learning Centre, University of Waikato Campus, Hamilton

The New Zealand Green Building Council and Sustainable Business Network invite you to an afternoon symposium on creating sustainable built environments and communities.

The afternoon will include:

- **Ms. Alex Cutler, Chief Executive of the New Zealand Green Building Council** speaking about 'securing sustainability of our built environments'
- **Tim Robinson and Greg Boyden of Jasmx** on planning and design for sustainable communities
- **Gareth Cartwright and Ian Mayes of Hamilton City Council** presenting the new Sustainable Hamilton Strategy with a focus on energy efficiency and urban design actions for 2013
- Tour of the 5 Green Star Rated Student Learning Centre to highlight its features and **Rachel Goddard** will speak on the University's sustainability initiatives.

Who should attend?

Planners, Designers, Architects, construction firms, builders and suppliers, anyone directly involved or interested in the design and creation of sustainable buildings and communities.

Refreshments are provided by University of Waikato
Entry is complimentary

Registrations: Spaces are limited so please RSVP by registering online [here](#) by Monday 15 April. We reserve the right to limit numbers of registrations per company.
