

Not for Profit Event Development Role

Expressions of interest

The Waikato Environment Centre is looking for an innovative and passionate event manager to help develop, and run fundraising/gala events for Kaivolution Food Rescue.

The goal of Kaivolution Food Rescue is to rescue food that is still good enough to eat, but not good enough to sell, and donate it to groups who work with those in need. By preventing waste from entering our landfill and feeding those in need Kaivolution is a fantastic initiative that's good for the environment and good for community.

Kaivolution Food Rescue is run under the umbrella of the Waikato Environment Centre and is currently dependent on grants to operate. We are keen to develop some regular fundraising events which will help to promote who we are and what we do, while at the same time raising money for this very worthy cause. We already have some potential ideas and contacts for exciting events, but it's likely a creative person would have even more.

We envision this would be a commission based contract role with an individual or small business. The contract would include long term rights to develop the event brands over time. If you are an experienced event manager, with a great track record, and feel passionate about healthy environments and thriving communities, we would love to hear from you.
